Program Agenda, Dec. 1, 2012
7:00 am  Board of Trustees Meeting
7:30 am  Registration Opens
8:00 am  Continental Breakfast
8:30 am  Presentation by Bruce Wenig, MD
“Squamous Cell Carcinoma of the Head and Neck, Precursor Lesions and Problematic Variants and Thyroid Papillary Carcinoma”
10:30 am  Break
11:00 am  Continuation by Dr. Wenig
12:15 pm  Membership Business Meeting
1:30 pm  Christian Keller  “Sinonasal pathology - chronic sinusitis and its mimics “
3:30 pm  Adjournment

Accreditation
This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint sponsorship of the College of American Pathologists (CAP) and Michigan Society of Pathologists. The College of American Pathologists is accredited by the ACCME to provide continuing medical education for physicians.

CME Designation
The CAP designates this live educational activity for a maximum of 5 AMA PRA Category 1 Credits™. Physicians should claim only credit commensurate with the extent of their participation in the activity.

Mission Statement
To provide opportunity for increased knowledge and continued education to Society members, as well as colleagues working in the field of pathology and related medical areas.

Distinguished Presenter
Bruce M. Wenig, M.D.
• Chairman, Department of Diagnostic Pathology and Laboratory Medicine
• Beth Israel Medical Center, St. Luke’s-Roosevelt Hospitals
• Associate Director, Continuum Cancer Centers of New York
• Adjunct Professor of Pathology, Department of Pathology Columbia University College of Medicine

Christian E. Keller, MD
• Senior Staff Pathologist
  Henry Ford Hospital and Medical Group

Meeting Objectives
Participants at Dr. Wenig’s presentation should be able to:
- to identify the criteria and understand the clinical relevance of epithelial dysplasia of the upper aerodigestive tract;
- to recognize the features of invasive squamous cell carcinoma and distinguish it from look-alike benign lesions;
- to recognize the clinical and pathologic features of select salivary gland neoplasms;
- describe the role of adjunct studies (e.g., histochemistry, immunohistochemistry) in the diagnosis and differential diagnosis of select salivary gland neoplasms
- to identify criteria for diagnosing thyroid papillary carcinoma and variants thereof;
- to describe the use and limitations of immunohistochemistry and molecular diagnostics in the diagnosis of thyroid papillary carcinoma;

Participants of Dr. Keller’s presentation, should be able to:
- Upon completion of this activity, participants should be able to identify histologic hallmarks of chronic sinusitis.
- Upon completion of this activity, participants should be able to recognize benign and malignant neoplasms that may mimic chronic sinusitis.
- Upon completion of this activity, participants should be able to discuss a panel of immunohistochemical stains to apply to sinonasal (small) blue round cell tumors.
