Pathology as Art

July 25, 2012
Artist: Rich Lieberman

Photograph: Scream of the Placenta

“PAS/fungal stain of placenta with granulomatous villitis elsewhere. Stain was negative for fungal elements, however, created an ‘interesting’ and ‘real-life’ artistic mimic of ‘The Scream’ by Edvard Munch, recently sold at auction for $119 million dollars”
Artist: May Chan

Photograph: Unnamed

“photomicrograph that I took and framed for Casey before she left (she has a special interest in infectious diseases) - Scabies at 600x, Maize & Blue stain.”
