The University of Michigan Health System

The Department of Pathology, University of Michigan Health System is seeking an academic pediatric/perinatal pathologist at the level of Assistant or Associate Professor (clinical track) to provide diagnostic services in pediatric surgical pathology, placental/perinatal pathology, and autopsy. An active pediatric pathology service, under the direction of Dr. Raja Rabah, supports a unique and challenging case mix drawing on both internal and extramural consultation cases. The new C.S. Mott Children's Hospital and Von Voigtlander Women's Hospital will open in November 2011 and will include state of the art pathology facilities. Postgraduate programs include an accredited fellowship in Pediatric Pathology. Already among the nation's premier centers for pediatric and Women’s health care services, research and education, the new 348-bed, 1.1 million square foot facility stands as a renewal of our commitment to make a difference - for our patients, families, community and employees.

Excellent diagnostic skills and board certification or eligibility in pediatric pathology are required. Preference will be given to those candidates with interest and expertise in placental/perinatal pathology. Subspecialty interest in cardiac pathology is also desirable. The successful candidate will support the academic activities of the Division of Anatomic Pathology and Department of Pathology, including collaborative research programs. The candidate will also participate in education of medical students, residents and fellows.

Interested candidates should submit curriculum vitae, and the names and addresses of five individuals who can provide letters of recommendation to:

Dr. Raja Rabah  
Director, Pediatric Pathology  
1500 East Medical Center Drive  
Ann Arbor, MI 48109-5054  
(734) 936-6776
