PENIS NEOPLASM

Procedure:
- Wide local excision
- Partial penectomy
- Total penectomy
- Other: ____________

Foreskin:
- Present
- Not identified
- Cannot be determined

Tumor Site:
- Glans
- Foreskin mucosal surface
- Foreskin skin surface
- Coronal sulcus
- Shaft
- Other: ____________

Tumor Size (greatest dimension): ______ cm

Histologic Type:
- Squamous cell carcinoma, usual type
- Verrucous carcinoma
- Warty carcinoma
- Papillary squamous carcinoma
- Basaloid squamous carcinoma
- Warty-basaloid carcinoma
- Sarcomatoid carcinoma
- Other: ____________

Histologic Grade:
- Well-differentiated (G1)
- Moderately-differentiated (G2)
- Poorly-differentiated (G3)
- Other: ____________

Depth of Invasion (absolute*): ______ mm

*Depth of involvement should be measured in mm from the nearest dermo-epidermal junction to the deepest extent of tumor. For a verrucous carcinoma, it can be measured from the nearest nonkeratotic surface to the deepest extent of tumor.

Extent of Primary Tumor:
- No evidence of primary tumor (pT0)
- Carcinoma in situ (pTis)
- Noninvasive verrucous carcinoma (pTa)
- Tumor invades subepithelial connective tissue without lymphovascular invasion and is not poorly-differentiated (pT1a)
Tumor invades subepithelial connective tissue with lymphovascular invasion or is poorly-differentiated (pT1b)
Tumor invades corpus spongiosum or cavernosum (pT2)
Tumor invades urethra (pT3)
Tumor invades other adjacent structures (pT4)

Lymph Node Status:
Not assessed
No regional lymph node metastasis (pN0)
Metastasis in a single lymph node (pN1)
Metastasis in multiple or bilateral inguinal lymph nodes (pN2)
Extranodal extension of lymph node and metastasis or pelvic lymph node(s) unilateral or bilateral (pN3)

Number (fraction positive): _____ / _____
Site (s):
Size of largest positive lymph node: _____ cm
Extranodal extension: Present  Absent  N/A

Distant Metastasis:
Not assessed
Distant metastasis (pM1)

Penile Intraepithelial Neoplasia (PeIN):  Present  Absent  N/A

Lymphovascular Invasion:  Present  Absent

Perineural Invasion:  Present  Absent

Margin Status:  Positive  Negative
