

NASOPHARYNX NEOPLASM

Procedure: Pharyngectomy
Other: _____

Tumor site: Nasopharynx
Other: _____

Tumor Laterality: Right
Left
Midline
Bilateral
Other: _____

Tumor Focality: Unifocal Multifocal

Tumor Size (greatest dimension): _____ cm

Histologic Type: Keratinizing squamous cell carcinoma
Nonkeratinizing squamous cell carcinoma
Other: _____

Histologic Grade: WHO grade 1
WHO grade 2
WHO grade 3
Other: _____

Lymphovascular Invasion: Present Absent

Perineural Invasion: Present Absent

Bone Invasion: Present Absent N/A

Margins: Negative Positive

Extent of Primary Tumor:

- No evidence of primary tumor (pT0)
- Tumor confined to nasopharynx (pT1)
- Tumor extends to oropharynx and/or nasal cavity without parapharyngeal involvement (pT1)
- Tumor with extension to parapharyngeal space and/or adjacent soft tissue involvement (medial pterygoid, lateral pterygoid, prevertebral muscles) (pT2)
- Tumor with infiltration of bony structures of skull base, cervical vertebra, pterygoid structures, and/or paranasal sinuses (pT3)
- Tumor with intracranial extension, involvement of cranial nerves, hypopharynx, orbit, parotid gland, and/or extensive soft tissue infiltration beyond the lateral surface of the lateral pterygoid muscle (pT4)

Lymph Node Status:

- Not assessed
- No regional lymph node metastasis (pN0)
- Unilateral metastasis in cervical lymph node(s) and/or unilateral or bilateral metastasis in retropharyngeal lymph node(s), 6 cm or smaller in greatest dimension, above the caudal border of the cricoid cartilage (pN1)
- Bilateral metastasis in cervical lymph node(s), 6 cm or smaller in greatest dimension, above the caudal border of the cricoid cartilage (pN2)
- Unilateral or bilateral metastasis in cervical lymph node(s), larger than 6 cm in greatest dimension, and/or extension below the caudal border of the cricoid cartilage (pN3)

Extent of Primary Tumor (Mucosal Melanoma):

- *Tumors limited to the mucosa and immediately underlying soft tissue, regardless of thickness or greatest dimension (pT3)*
- *Tumor involving deep soft tissue, cartilage, bone, or overlying skin (pT4a)*
- *Tumor involving brain, dura, skull base, lower cranial nerves (IX, X, XI, XII), masticator space, carotid artery, prevertebral space, or mediastinal structures (pT4b)*

Lymph Node Status (Mucosal Melanoma):

- *Not assessed*
- *No regional lymph node metastasis (pN0)*
- *Regional lymph node metastases present (pN1)*

Distant Metastasis:

- Not assessed
- Distant metastasis (pM1)
