

How to use the Slide Scanning Service Encrypted 64 GB flash drive

- 1) Applies to Kingston DataTraveler 4000G2-M flash drives acquired in early 2015
- 2) Insert the flash drive into the USB port as usual
- 3) Open the Computer window
- 4) Double-click the DT4000G2M-R icon.
- 5) Double-click the DT4000G2M-R.exe file
- 6) Enter the password.
- 7) Click My Files (G:\)
- 8) You should see a window pop up that shows the Lymphoma Conference files and folder as usual.
- 9) When done, close window and then click “Actions” in upper left of My Files / Settings / Lock window.
- 10) Choose “Lock and Exit.”
- 11) Remove drive.
