

# BINGO Instructions

## Set Up:

- Lab Week Bingo is located > [HERE](#)
- Choose your department/lab team from the dropdown and hit > 'Continue'
- View the Bingo card for your team: The game is now running and two numbers are drawn every hour at the top of the hour.

## Claiming 'BINGO':

- The page will always show the last 5 numbers drawn. Click 'Show All Numbers' to view all the numbers that have been drawn.
- Below that is your Bingo Card where you can mark the numbers/tiles as they are drawn by clicking on the number. They are *marked* by turning **grey**.
- Click > 'Claim Bingo' at the bottom of the card *when you hit five in a row* (either vertically, horizontally, or diagonally). That button is disabled until at least 4 numbers are drawn in the game
- Once a team claims Bingo, an announcement will appear at the top of your page.

## The Game Continues...

- The game will continue to allow other winners until the next cards are drawn at the top of the hour, when a new game will start and automatically loaded on your page.
- Your bingo card will reset—all marked tiles/numbers will be unmarked for you.

## Have Fun!
